Early Childhood Education  
for ALL Students

# Early Intervention Program

Providing *all* students in our care with the ability to have access to high quality kindergarten readiness is our number one priority. Our in house early intervention program primarily works with students looking to work with our on staff Speech Language Pathologist or who are interested in joining our social groups..

## SPEECH THERAPY

we currently offer free speech evaluations, in class social communication modeling, small group speech sessions during the school day with both students working on the same things, and typical peer buddies, private one-on-one speech support during the school day, and additional private after school speech therapy.

Time: Monday - Thursday  
9:00am - 12:00pm

## SKILL BUILDING CLASSES

Area kindergarten teachers agree - the number one focus to get students "kindergarten ready" should be social emotional preparedness. Therefore, at MSP we are offering 3 different types of social skill building classes as an extended day option in order to help all of our students learn and grow to the best of their ability before they head on to the next educational experience.

Time: Monday - Thursday  
12:00pm - 2:00pm  
Ratio: 2:10

## PEER BUDDIES

The future is diverse! Here at MSP we strive to be fully inclusive in all senses of the word - developmentally, culturally, socially. Having peer buddies is a huge piece of creating an inclusive environment, specifically for our students with special needs. These friends help our students during speech groups, join our skill building classes to help model kindergarten readiness skills, and model appropriate play behaviors in the classroom.
